Risk Factors

The Company is indirectly involved in the manufacture, possession, use, sale and distribution of cannabis in the recreational and medicinal cannabis marketplace in the United States through its subsidiary MM Development Company, Inc. ("MMDC"). The State of Nevada, where MMDC operates, permits such activities, however, these activities are currently illegal under United States Federal law. Additional information regarding this and other risks and uncertainties relating to the Company’s business are disclosed in the Company’s public filings, including its Annual information Form dated April 5, 2021 and the most recent quarterly MD&A, both filed on its issuer profile on SEDAR at www.sedar.com. Should one or more of these risks, uncertainties or other factors materialize, or should assumptions underlying the forward-looking information or forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected.

Cannabis-Related Practices or Activities are Illegal Under U.S. Federal Laws

The concepts of “medical cannabis” and “recreational cannabis” do not exist under U.S. Federal law. The U.S. Federal Controlled Substances Act classifies “marijuana” as a Schedule I drug. Accordingly, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. Federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under U.S. Federal law, nor will it provide a defense to any Federal proceeding which may be brought against the Company. Any such proceedings brought against the Company may adversely affect the Company’s operations and financial performance.
